PROFILE

Experienced and expert computer programmer, self-taught about coding at young aged and professionally taught by the lecturers at the Universiti Teknologi Malaysia. Can do multiple work simultaneously at a rapid pace to finish within a determined time.

HISTORY

From the young age, I have took interested in programming once I have onhold of a technology. The thought of being able to change everything in a said device interested me, after such thought I realized that I need to learn the very language the computer is using in order to change, shape and mold it to my liking.
